### North West River Senior Dormitory, 1975-1979

*"I went to Northwest River Senior Dormitory from 1975 to 1979. I experienced loneliness for my sisters and my parents and my baby brother who was only a few months old when I was sent away from home. I only got to see my family during the holidays, no phone calls and no letters. Then I had another brother, who I never got to see until he was only a several months old. I remember when I was able to see him, he cried and ran away because he did not know who I was and that really broke my heart. Having to share a room with 3 other females was okay at first but after sharing with someone different each year was becoming unbearable because there was no real privacy and some were mean to me."*

"I often wonder sometimes which path I would be on now if someone else had not chosen the path for me 38 years ago. Today I am happy because I did not let it consume me. I have a wonderful husband, 2 beautiful daughters, a grandson and another grand baby on the way. Life is good."
